Summary –

Results-driven FinTech Operations & Risk Management Professional with 2+ years of progressive experience across Amazon India and Full Potential Solutions (FPS). Specialized in safeguarding digital payment ecosystems (Amazon Pay, digital wallets), executing robust KYC/AML compliance programs, and mitigating complex financial fraud. Proven track record in transaction monitoring, sanctions screening, buyer/seller verification, and end-to-end chargeback dispute resolution. Adept at conducting deep-dive investigations, enforcing account controls, and preventing financial loss while ensuring strict regulatory compliance and smooth customer experiences.

Work Experience

Organization – FPS – Full Potential Solutions (Feb 2026 to till date)

Customer Protection Team, Associate (KYC, AML and Fraud Detection)

• Conduct transaction monitoring, fraud investigations, and risk assessments to identify suspicious activity and mitigate financial crime risks. • Perform KYC, CDD/EDD, PEP, and sanctions screening (OFAC, UN, EU, HMT) for customer onboarding and ongoing account reviews • Investigate flagged transactions, verify customer activity through phone, email, and chat interactions, and maintain detailed case documentation and audit trails. Process disputes and chargebacks, escalate complex fraud cases, and implement account restrictions or controls where risk indicators are identified.

Organization – Amazon India Pvt. Ltd – (Mar 2024 to Nov 2025)

SPS Associate (Fintech Operations)

Results-oriented FinTech Specialist with 1.8 years of experience at Amazon, specializing in payment risk mitigation, wallet fraud detection, buyer/seller KYC verification, and chargeback disputes. Proven track record in safeguarding payment ecosystems (Amazon Pay, digital wallets), preventing account takeovers (ATO), and enforcing AML/Sanctions compliance while minimizing friction for legitimate customers.

Core Competencies

- Digital Wallet & Payment Fraud: Amazon Pay abuse, Account Takeover (ATO), Stolen Financials, Prepaid/Gift Card exploitation.
- KYC & Seller Verification (KYB): Customer Identification Program (CIP), Seller Identity Verification (SIV), Beneficial Ownership checks.
- Dispute & Chargeback Management: Credit card chargeback representment, First-party fraud (Friendly Fraud), Concessions abuse.
- AML & Sanctions Screening: Denied Party Screening (DPS), OFAC matching, Suspicious Activity Reporting (SAR).

Organization – IGT solutions – (Aug 2022 to Mar 2023)

Process Associate

- Handled complex international bookings across multi-segment routes, maintaining high accuracy in fare calculation and ticketing.
- Reduced resolution turnaround times for flight changes, schedule adjustments, and schedule disruption scenarios (IROPS).
- Processed partial and full refund claims in compliance with carrier policies and regulatory guidelines.
- Resolved customer baggage disputes and ancillary addition requests, maintaining high satisfaction scores during peak travel periods.

Education

Bachelor of Engg. (CSE)-Shivaji University, Kolhapur- 2022

Achievements

- Reduced Financial Exposure: Mitigated over $150K+ [or X Amount] in potential fraud losses across digital wallet transactions and gift card abuse by identifying high-risk pattern anomalies and Account Takeover (ATO) attempts early.
- Optimized Chargeback Win Rate: Improved successful chargeback representments by 20% through rigorous evidence gathering, device fingerprint analysis, and detailed transaction documentation, recovering significant disputed funds from issuing banks.
- Maintained High Audit Quality: Consistently achieved a 98%+ QA accuracy score in executing Customer Due Diligence (CDD/EDD), PEP, and global sanctions screening (OFAC, UN, EU, HMT) across complex customer and seller profiles.
